**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I want you to maintain competition and access to UNE's in the residential marketplace.

I have been a DSL customer of Sonic.net for a decade. I like their pricing, their customer service, their internet service, and their dedication to privacy and net neutrality. In all these aspects they are superior to AT&T. Sonic is able to provide their excellent service because of their access to facilities based on the 1996 Telecommunications Act.

Please do not believe US Telecom's self-serving lies about dismantling this access to competitive providers. US Telecom only want to solidify the monopoly positions of their members and does not give a hoot about service to customers.

In the past year, Sonic.net has built out their own fiber to my home and I am able to enjoy Sonic's advantages at super speeds. They still need access to UNE facilities to provide this service.

Please maintain competition and UNE access by competitive providers. Maintain the the 1996 Telecommunications Act.

Thank you.

Frank Harris
